

Title: TBD

Description:

An app where you can ask a friend to see if the outfit you picked looks good. If not, your friend has the option to choose from different tops and bottoms, that the user has uploaded, to switch from.

Instructions:

1. Register and set up a user name and password.
2. The person you send to look over your outfit has to also be registered so you can use their user name to submit.
3. You can limit how much they have access to see.
4. Take a picture, using your mobile device, with an outfit in the area to stay within.
5. Continue to do this for the different pieces of clothing you would like to upload.
- 6.

Why it's valuable?

It's valuable, especially with teenage girls, who are constantly going back and forth with their friends on how things look on them. Since they are usually rushing in the morning before school, because lets not forget hair and makeup takes time, it would be great to have this app reducing their time.
